**Anything of Which a Woman Is Capable** Mary M. McGlone, 2017-12-15 The title, *Anything of Which a Woman is Capable*, comes from Father Jean Pierre Médaille, the Jesuit who brought together the first Sisters of St. Joseph in the mid-seventeenth century. Since 1650, congregations of St. Joseph have grown in Europe, the Americas, India and the Orient, all attracting women who are called to do anything of which they are capable to serve their dear neighbor. This volume tells stories of the foundations of congregations in France and then, beginning in 1836, in the United States. It introduces the reader to intrepid women whose willingness to serve knew no boundaries and whose strong personalities provided an ample match for Church leaders who either encouraged or tried to control their zeal. The copious footnotes make this a valuable addition to the history of Catholic women religious in the United States as well as to the history of Catholicism.

Stitched Up Dr Shahed Yousaf,2022-07-07 'Stories that will curl your toes, make you laugh out loud and break your heart all at the same time.' PROFESSOR DAME SUE BLACK, author of All That Remains Told from the inside out, this is a harrowing, humorous and hard-hitting tale of life behind bars by a prison doctor who has seen it all. Literally. Dr Shahed Yousaf spends his time running between emergencies - from overdoses to assaults, from cell fires to suicides - with one hand perpetually hovering over the panic button. Being a prison doctor is not for the faint-hearted. An outsider on the inside, in Stitched Up he introduces us to a cast of unforgettable characters, including killers, con men and auto-cannibals. To Dr Yousaf, they are patients first and prisoners second - because any one of us could end up on the wrong side of the law. Dedicated to caring for people on the margins of society, he tells us honestly and compassionately what it's like to be their doctor in a system that's chronically overcrowded, drastically under-resourced and all too easy to ignore. But while the system is failing, he and his colleagues are doing their very best to prop it up. In stories that are frequently harrowing, sometimes humorous and always hard-hitting, we discover how difficult it is to be locked up - but that there is still hope for all those who dare to care. For fans of *This is Going to Hurt*, *The Secret Barrister* and *A Bit of a Stretch*

High Quality Care for All Secretary of State for Health,2008 This review incorporates the views and visions of 2,000 clinicians and other health and social care professionals from every NHS region in England, and has been developed in discussion with patients, carers and the general public. The changes proposed are locally-led, patient-centred and clinically driven. Chapter 2 identifies the challenges facing the NHS in the 21st century: ever higher expectations; demand driven by demographics as people live longer; health in an age of information and connectivity; the changing nature of disease; advances in treatment; a changing health workplace. Chapter 3 outlines the proposals to deliver high quality care for patients and the public, with an emphasis on helping people to stay healthy, empowering patients, providing the most effective treatments, and keeping patients as safe as possible in healthcare environments. The importance of quality in all aspects of the NHS is reinforced in chapter 4, and must be understood from the perspective of the patient's safety, experience in care received and the effectiveness of that care. Best practice will be widely promoted, with a central role for the National Institute for Health and Clinical Excellence (NICE) in expanding national standards. This will bring clarity to the

high standards expected and quality performance will be measured and published. The review outlines the need to put frontline staff in control of this drive for quality (chapter 5), with greater freedom to use their expertise and skill and decision-making to find innovative ways to improve care for patients. Clinical and managerial leadership skills at the local level need further development, and all levels of staff will receive support through education and training (chapter 6). The review recommends the introduction of an NHS Constitution (chapter 7). The final chapter sets out the means of implementation.

Doing Good Science in Middle School, Expanded 2nd Edition Olaf Jorgenson, Rick Vanosdall, Vicki Massey, Jackie Cleveland, 2014-04-01 "We are among those who have come to enjoy the blossoming intellects, often comical behaviors, and insatiable curiosity of middle schoolers—and choose to work with them! With more than 130 years of combined experience in the profession, we've gathered a lot of ideas to share. We know from our interactions with educators around the country that precious few quality resources exist to assist science teachers 'in the middle,' and this was a central impetus for updating *Doing Good Science in Middle School*." —From the preface This lively book contains the kind of guidance that could only

come from veterans of the middle school science trenches. The authors know you're crazy-busy, so they made the book easy to use, whether you want to read it cover to cover or pick out sections to help you with lesson planning and classroom management. They also know you face new challenges, so they thoroughly revised this second edition to meet the needs of today's students. The book contains: • big-picture concepts, such as how to understand middle school learners and explore the nature of science with them; • a comprehensive overview of science and engineering practices, STEM, and inquiry-based middle school science instruction, aligned with A Framework for K-12 Science Education and the Next Generation Science Standards; • 10 new and updated teacher-tested activities that integrate STEM with literacy skill-building; • information on best instructional practices and professional-development resources; and • connections to the Common Core State Standards in English language arts and mathematics. If you're a new teacher, you'll gain a solid foundation in how to teach science and engineering practices while better understanding your often-enigmatic middle-grade students. If you're a veteran teacher, you'll benefit from a fresh view of what your colleagues are doing in new times. Either way, *Doing Good Science in Middle School* is a rich opportunity to reaffirm that what you do is "good science."

**Military Men of Feeling** Holly Furneaux, 2016-03-25 Military Men of Feeling considers the popularity of the figure of the gentle soldier in the Victorian period. It traces a persistent narrative swerve from tales of war violence to reparative accounts of soldiers as moral exemplars, homemakers, adopters of children on the battlefield and nurses. This material

invites us to think afresh about Victorian masculinity and Victorian militarism. It challenges ideas about the separation of military and domestic life, and about the incommunicability of war experience. Focusing on representations of soldiers' experiences of touch and emotion, the book combines the work of well known writers—including Charles Dickens, Charles Kingsley, William Makepeace Thackeray, Charlotte Yonge—with previously unstudied writing and craft produced by British soldiers in the Crimean War, 1854-56. The Crimean War was pivotal in shaping British attitudes to military masculinity. A range of media enabled unprecedented public engagement with the progress and infamous 'blunders' of the conflict. Soldiers and civilians reflected on appropriate behaviour across ranks, forms of heroism, the physical suffering of the troops, administrative management and the need for army reform. The book considers how the military man of feeling contributes to the rethinking of gender roles, class and military hierarchy in the mid-nineteenth century, and how this figure was used in campaigns for reform. The gentle soldier could also do more bellicose social and political work, disarming anti-war critiques and helping people to feel better about war. This book looks at the difficult mixed politics of this figure. It considers questions, debated in the nineteenth century and which remain urgent today, about the relationship between feeling and action, and the ethics of an emotional response to war. It makes a case for the importance of emotional and tactile military history, bringing the Victorian military man of feeling into contemporary debates about liberal warriors and soldiers as social workers.

Conway took on the helm at Smith at the height of exploding culture wars and the rising popularity of coeducation. With the college's future at stake, she battled conservative faculty, ossified traditions, and doubtful funders to turn Smith into a place committed to preparing young women for the new realities of the future. Through it all, Conway served as an inspiration to thousands of students, while balancing the demands of her public role against the private pressures of coping with her husband's bipolar disorder. A moving tribute to the value of single-sex education and to one woman's achievements,

A Woman's Education is sure to become a classic.

This is a remarkable collection, which makes a new and bold contribution to the genre of diaspora literature. - Hannah Lowe Jennifer Wong's voice is captivating, compassionate, her poems full of insight, as she questions the complex relationship between culture and identity and what it means to leave a place to become defined by another. - Rebecca Goss

*Chase the Rainbow* Poorna Bell, 2017-05-04 'A candid, warm, sad, surprisingly funny, raw, brave, bittersweet book.' - MATT HAIG 'Chase the Rainbow is a game-changing book. I urge you to delve into its courageously written pages to learn about Poorna Bell's story.' - FEARNE COTTON 'A story of love and loss and a vital contribution to the mental health debate. A great read.' - ALASTAIR CAMPBELL An honest yet uplifting account of a woman's life affected (but not defined) by the suicide of her husband and the deadly paradox of modern-day masculinity. Punk rocker, bird nerd and book lover Rob Bell had a full, happy life. He had a loving wife, a big-bottomed dog named Daisy and a career as a respected science journalist. But beneath the carefully cultivated air of machoism and the need to help other people, he struggled with mental health and a drug addiction that began as a means to self-medicate his illness. In 2015, he ended his life in New Zealand on a winter's night. But what happened? How did a middle-class Catholic boy from the suburbs, who had an ocean of people who loved him, and a brain the size of a planet, end up dying alone by his own hand? How did it get to this point? In the search to find out about the man she loved, and how he arrived at that desperate, dark moment, Poorna Bell, former executive editor and global lifestyle head for HuffPost, went on a journey spanning New Zealand, India and England to discover more about him. *Chase the Rainbow* is an affecting, poetic, and deeply personal journey which teaches to seek hope and happiness, even in the most tragic of circumstances. Shattering the stigma surrounding depression and suicide, Poorna Bell challenges us talk about what we most fear, and to better understand the personal struggles of those closest to us. 'Forget Nicholas Sparks, Poorna Bell's debut book is a real-life tearjerker like no other. It's a harrowing and intensely emotional account, one that we impel everyone to read.' - VOGUE

**Fretwork** Lynne Thompson, 2018 Poetry. With Lynne Thompson's new collection FRETWORK, one feels spurred on by the

cherished care of the American emigrant story, which is to say, the buttressing and fortifying of the dream with all of its inglorious and joyous plots and twists. In mapping her supreme truths, imaginatively rendered here in measured lines, embedded in the familial tales, and felt music of her people, she embraces that light that emanates from language that aligns memories to myth. This is a masterful collection; one cannot help but surrender to the calling of its cadences that resonate widely into the 21st century.--Major Jackson

*Picture-Book Professors* Melissa M. Terras, 2018-10-04 How is academia portrayed in children's literature? This Element ambitiously surveys fictional professors in texts marketed towards children. Professors are overwhelmingly white and male, tending to be elderly scientists who fall into three stereotypes: the vehicle to explain scientific facts, the baffled genius, and the evil madman. By the late twentieth century, the stereotype of the male, mad, muddlehead, called Professor SomethingDumb, is formed in humorous yet pejorative fashion. This Element provides a publishing history of the role of academics in children's literature, questioning the book culture which promotes the enforcement of stereotypes regarding intellectual expertise in children's media. The Element is also available, with additional material, as Open Access.

Dope Black Dads Marvyn Harrison, 2022-06-02 On Fathers' Day in 2018, Marvyn Harrison created a WhatsApp group with all the Black fathers he knew (at the time, twenty-three people) to wish them a happy Fathers' Day. This small group chat grew to become a community; a hub for knowledge-sharing and support, with the network discussing co-parenting, cohabiting, marriage, fatherhood, blended families and much more. Dope Black Dads is now an internationally recognised community of over 40,000 across the UK, US, South Africa and beyond sharing their personal stories, journeys, life lessons and learnings derived from their experiences of being Black fathers. In this book, Marvyn brings to light his experience of Black fatherhood, discussing his own journey into fatherhood, his relationship with his own father, and the narratives around Black fatherhood, bringing in fellow Dope Black Dads such as Tinie Tempah, Mark Maciver, Raphael Sofoluke and Sean Fletcher to share their stories, wisdom, advice and fatherhood hacks. From deep dives into how you can prepare for fatherhood, working on your emotional and mental wellbeing ahead of having a child and learning how to love yourself as well as your partner and child, to the practicalities of co-parenting, co-habiting, finances and health to the importance of supporting Black women, examining Black masculinity and celebrating LGBTQIA+ Black dads, Dope Black Dads is an honest, informative and much-needed guide to Black fatherhood in all its forms.

White Blood Kiki Petrosino, 2020-05-05 In her fourth full-length book, *White Blood: A Lyric of Virginia*, Kiki Petrosino turns her gaze to Virginia, where she digs into her genealogical and intellectual roots, while contemplating the knotty legacies of slavery and discrimination in the Upper South. From a stunning double crown sonnet, to erasure poetry contained within DNA testing results, the poems in this collection are as wide-ranging in form as they are bountiful in wordplay and truth. In her poem 'The Shop at Monticello,' she writes: 'I'm a black body in this Commonwealth, which turned black bodies/ into money. Now, I have money to spend on little trinkets to remind me/ of this fact. I'm a money machine & my body constitutes the common wealth.' Speaking to history, loss, and injustice with wisdom, innovation, and a scientific determination to find the poetic truth, *White Blood* plants Petrosino's name ever more firmly in the contemporary canon.
